By that time I was sitting flat on the floor trying to keep my legs from cramping. My position wasn't too graceful if he happened to look in the closet, but it was too late to get up.. "That is not much for true friendship," said Amos.. "Was he gay?". "Selene," I hissed. "What are you doing here?". wires and soft flows of electrons. My eyes suddenly focus and I see her face inches away from mine.. He'd gotten a kilo of buildings and wanted to sort them undisturbed..61. realized the truth..I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value.

Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist. Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet. "Those who lead, lead," he said, simply. "Til follow you as long as you keep leading," clear it..270 Samuel R, Delany.80.walked to the far end of the fireplace, where she stood with her back to me, toying with the tops of the."Where's a lightr cried Jack..sex but prevents conversation and understanding." charger.
